Passionate about building responsive web applications and developing problem-solving skills through hands-on projects. Eager to grow as a developer and contribute to real-world software solutions.

Education

Bachelor of Computer Applications (BCA)

St. Berchmans College Autonomous, Changanacherry

2023 – Present

2nd Year

- Building strong foundations in programming, web development, and computer science.
- Hands-on coursework in Data Structures, DBMS, Operating Systems, and Cybersecurity.

Projects

Disease Prediction using Machine Learning

Python

github.com/Bino369/Disease-predicts-using-ml

- Built an ML system that predicts disease based on user-input symptoms.
- Used three different machine learning algorithms and compared results for higher prediction accuracy.

Lyrics Sync Visualizer

HTML, CSS, JavaScript

github.com/Bino369/lyrics-sync-visualizer

- Developed a premium, Apple Music-style karaoke lyrics visualizer using vanilla HTML, CSS, and JavaScript.
- Implemented interactive, time-synced lyric animations with a polished, responsive UI.

BCA Attendance Tracker

TypeScript, React (Vite), Node.js, Express, MongoDB

github.com/Bino369/bca-attendance-tracker

- Built a full-stack attendance tracking app with a TypeScript React frontend and a Node/Express + Mongoose backend.
- Enabled taking attendance, viewing student history, and exporting records to CSV.
